In-Lab Shade Consultations Postponed through June 30th

We have decided to postpone our in-lab shade consultation service through June 30th. We will re-evaluate adding this service back at the beginning of July.

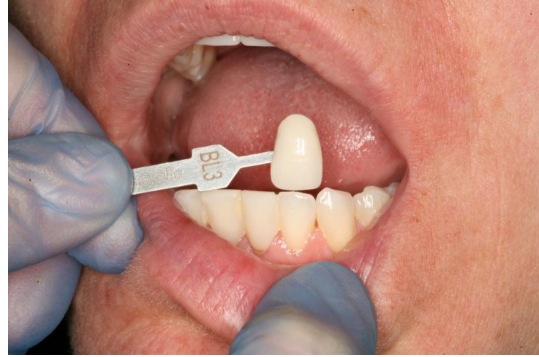

Sending us photos like the examples provided are a big help and most of the time this is all we need to match the shade.

E-mail photos to:
SCS@SuncoastCeramic.com

Principles of Shade Selection

1. Teeth to be matched must be clean
2. Remove bright colors from field of view
 - makeup / tinted eye glasses
 - bright gloves
 - neutral operator walls
1. View patient at eye level
2. Evaluate shade under multiple light sources
3. Make shade comparisons at beginning of appointment
4. Shade comparisons should be made quickly to avoid eye fatigue
